

Steeldeck Platforms

Immensely robust and strong, for demanding roles

Description

Standard Steeldeck® platform constructed using steel truss frame with high quality $\frac{3}{4}$ " plywood tops. Tops are backed with a sound adsorbing acoustic foam which also offers fire protection (Class 0). Standard platforms will accept 4 legs of 48.3 mm OD scaffolding tube (USA $1\frac{1}{2}$ " Schedule 40 steel pipe). Legs are held in place by a hand knob or bolt. Platforms are connected to each other by bolting through pre-drilled holes along each edge.

Data
